INQUIRY INTO ESCAPE

Night Keeper Holihan, Who Was on Duty When Forsbrey Made Daring Getaway From Prison, Must Answer to Charges.

GUARD SLEPT BY DOOR AS INDICTED MAN FLED.

Scantling Studded With Nails Used as Ladder and Wall Was Scaled With Great Ease.

Regarded as the most dangerous prisoner in the Tombs, and bolted in a vault-like cell that was considered the last word in modern dungeons, Reynold Forsbrey, facing two charges of murder, succeeded in escaping to-day in his second attempt to break jail within a week,

The escape was the most sensational in many ways in the history of the Tombs, especially so in view of the fact that the same prisoner was caught in the act of sawing his way out of a cell five days ago. It would never have been possible, however, had not the special guardians appointed to watch the desperate young criminal day and night gone to sleep on the job. In fact there seems to have been a general relaxation of discipline throughout the prison, and a drastic investigation is promised by Commissioner of Corrections Whitney.

Forsbrey escaped from the City Prison east corner on the Centre street side before 3 o'clock this morning, vanished They are reached by a stairway and a of his flight.
